

I'm **Hazim AlRadadi** and I am a designer and art director.

I'm a self-taught designer who has succeeded in making a living from my passion by taking the bold step of following the road less travelled. I take this same focus and dedication to every client project I undertake.

I was formally trained as a Chemical Engineer but my love for design was stronger; so I set out to learn and experience everything about it.

15 years experience.

## Experience

### Design Lead

King Abdullah University Of Science & Technology (KAUST)  
February 2014 – Present (2 years 11 months)

Provide ongoing support and assistance to the Creative Services Manager in creating effective design solutions for the University in a variety of mediums (including: marketing collateral, identities, web, publication, e-newsletters, infographics, presentations, trade show booths, gift & promotional items and beyond).

Manage the direction and growth of our design team, including wrangling all of their projects, assigning projects & setting realistic timelines to make sure things are getting done properly.

Collaborate cross-functionally with the creative team, editorial team and with other designers across the University to ideate on and design a wide variety of internal and externally materials.

Lead and execute projects for the Office of The President (including: KAUST Discovery magazine, State of the University, Factbook, and Commencement Dinner).

### Senior Graphic Designer

KAUST  
January 2013 - February 2014 (1 year 2 months)

### Graphic Designer
