

# I'm **Hazim AlRadadi** and I am a Designer and Art Director.

I'm a self-taught designer who has succeeded in making a living from my passion by taking the bold step of following the road less traveled. I take this same focus and dedication to every client project I undertake.

I was formally trained as a Chemical Engineer, but my love for design was stronger; so I set out to learn and experience everything about it.

## Experience

### Manager of Creative Services (Acting)

In addition to leading the Design Team, I am currently managing the Multimedia/Video and Photography teams by ensuring the continuity of the workflow & providing art direction.

April 2018 - Present

### Design Lead

King Abdullah University Of Science & Technology (KAUST)

February 2014 - Present

Creating effective design solutions for the University in a variety of mediums (including marketing collateral, identities, web, publication, infographics, trade show booths, gift & promotional items and beyond).

Lead and execute projects for the Office of The President & Senior Management (including KAUST Discovery magazine, State of the University, Factbook, Commencement and The Beacon Magazine).

Collaborate cross-functionally with the creative team, editorial team and with other designers across the University to ideate on and design a wide variety of internal and externally materials.

Manage the direction and growth of our design team (4 Graphic Designers), including wrangling all of their projects, assigning projects & setting realistic timelines to make sure things are getting done properly.

### Senior Graphic Designer

KAUST

January 2013 - February 2014

### Graphic Designer

KAUST
